The Guardian

Shakespeare Appreciated presents eight unabridged plays, beautifully performed as powerful full-cast audio dramas, with friendly commentary that entertains and explains.

Full of fascinating insights into the plays and into Shakespeare's world. Featuring actors from the Royal Shakespeare Company, the BBC radio repertory and the National Theatre. These unique audio productions are the perfect introduction for anyone who's ever wanted to discover the power of Shakespeare, and a delight for those who already know a thing or two about the bard.

Each play is presented with especially composed musical scores. All titles are available as multiple CD sets or as a single MP3-CD. Both formats include two versions of the plays so you can choose to hear Shakespeare with and without commentary.
